

Where could Access to Nursing take you?

Wondering what to do after your Access course?

You could study...

(A few) higher education options:

- Nursing
- Children's Nursing
- Adult Nursing
- Public Health
- Occupational Therapy
- Mental Health Nursing
- Learning Disability Nursing
- Health and Social Care
- Midwifery
- Psychology
- Operating Department Practice
- Health and Psychosocial Studies
- Speech and Language Therapy

Use the UCAS course search tool to find different courses:
www.digital.ucas.com/search

skills you already have

interpersonal skills
problem solving
communication
organisation
attention to detail
teamwork

Remember, these skills are always worth mentioning in a personal statement, job application, or interview.

Many health-related degree courses have work placements as part of your degree. This is a great opportunity to combine study with work experience. Make sure the location of potential placements factors in to your decision-making process – can you get there for a night shift?

Apprenticeships
